EC-65T

HIGH CAPACITY STOCKPILING

The McCloskey™ EC-65T sets the standard for high capacity, high mobility stackers. The EC-65T comes with an impressive array of features, including a large hopper, full-length guarding, an easily accessible engine bay, an impact section under the feed boot and an adjustable feed boot height. When the EC-65T arrives at a job site, it takes only a few minutes to set up and get to work. As is the case with all McCloskey stackers, the EC-65T features a setback design for maximum stockpiling.

At 65' long, the EC-65T is the entry point for McCloskey tracked stackers, which are also available in 80', 100' and custom lengths.

FEATURES

- ???

![McCloskey Environmental]

FULL SAFETY GUARDING

- Full-length flashing minimizes nip points, increasing safety.

TRACKS

- For maximum mobility, tracks allow the stacker to be easily moved on its own.

TRANSPORT FRIENDLY

- At only 2.23m wide, the EC-65T is easily transported between job sites.

LARGE HOPPER

- The large hopper allows operators to make the most efficient use of the EC-65T5's high volume capabilities.

STOCKPILING ABILITY

- At 40" wide and 65' long, the conveyor is able to handle large amounts of product.

OPTIONAL WIRELESS REMOTE

- Provides remote maneuverability and enhances safety for moving freely to the best location.
